THAT Delivers Holiday Movie Experience for Kids

Tasmanian Hospitality Association Together today provided a special school holiday experience for children who otherwise may miss out.

THAT board member Phil Fuglsang said THAT had provided funding to send more than 100 kids and their carers to a school holiday movie in Hobart.

“The fact is, not every family can afford to take their kids to a holiday movie, and THAT wanted to help some of these kids experience what is undoubtedly a highlight of many school holidays.

“When families suffer financial or other hardships, it is usually those things like a trip to the cinema which are simply not able to be done. THAT knows these families and kids want to enjoy these activities, which is why we decided to make a bit of movie magic happen.

“To be able to provide an experience for these youngsters which many other Tasmanian kids take for granted is something THAT aspires to be able to do. If we can help send them to a movie, let them have a laugh and a good time out, then that’s a great project.

Mr Fuglsang said the THA provided the funding for the tickets which were distributed through Colony 47.

“It was such a great atmosphere. The kids had the widest smiles and thoroughly enjoyed themselves. I certainly hope it will rank among their holiday highlights when they’re back at school telling their friends,” Mr Fuglsang said.
